AMBITION POUR LE FUTUR

Determining the optimal population level for Luxembourg

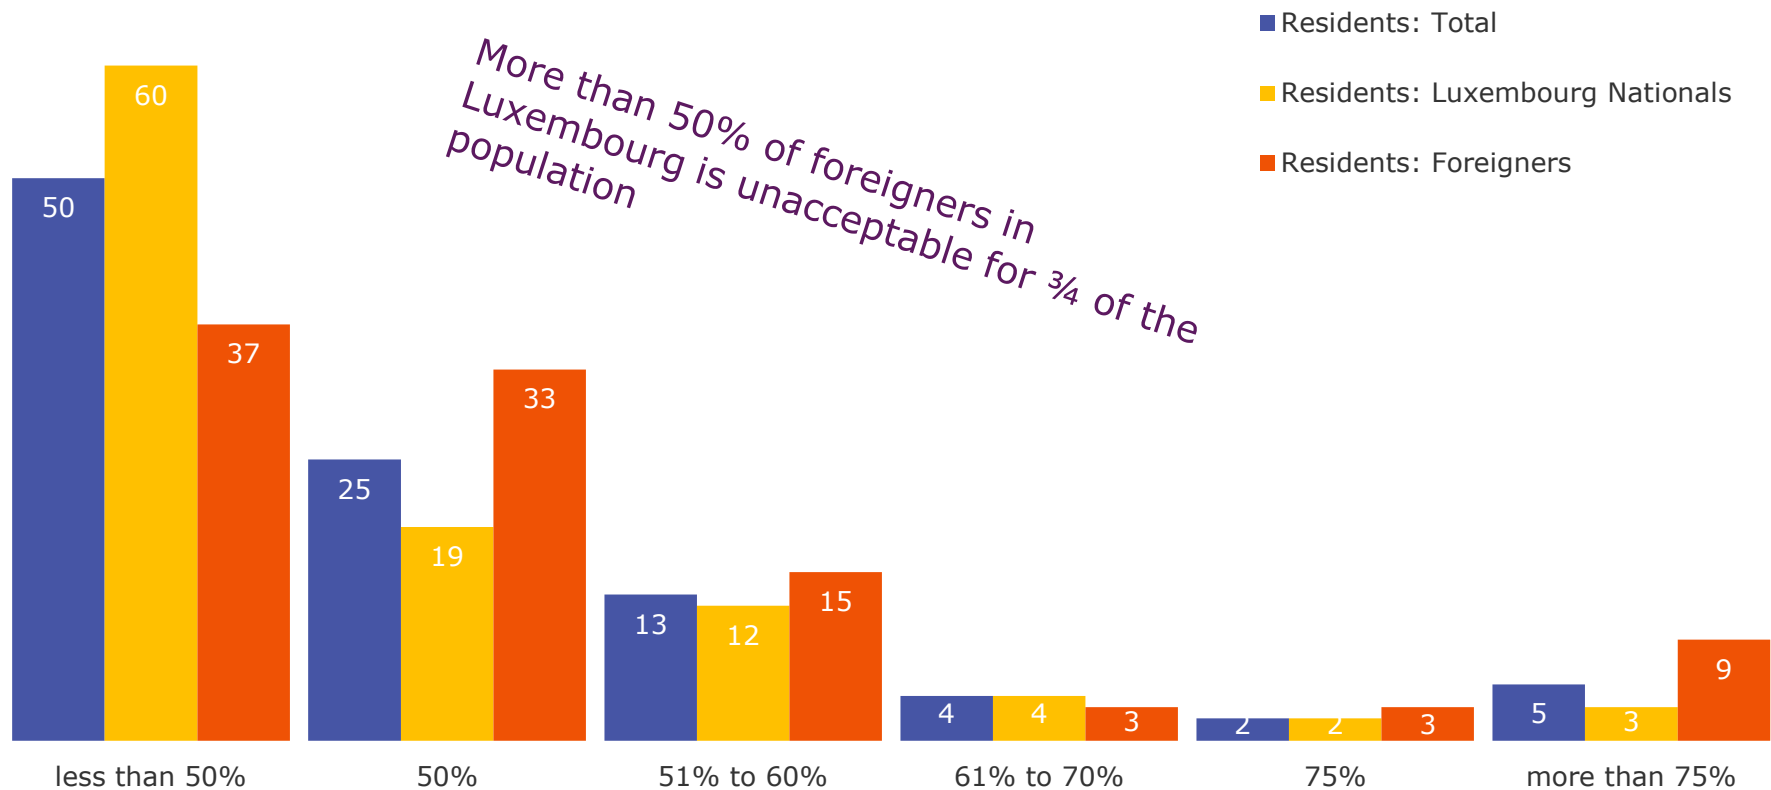

Nb: Survey among the residents

Determining the optimal population level for Luxembourg

- ✓For the majority of the residents, about 45%, the maximum acceptable amount of inhabitants in Luxembourg would be about 600.000. 1/3 of the residents belonging to the age group 18-24 would even accept a level of 700.000 inhabitants.
- ✓Having a closer look at the results at the aggregated level, 80% of the residents prefer that the maximum amount of inhabitants should not exceed the threshold of 800.000.
- ✓Among the cross-border community, the acceptable maximum amount of inhabitants would be about 700.000. 22% among them would even consider a maximum level of 900.000 inhabitants.

Determining the maximum share of foreigners in Luxembourg

Nb: Survey among the residents

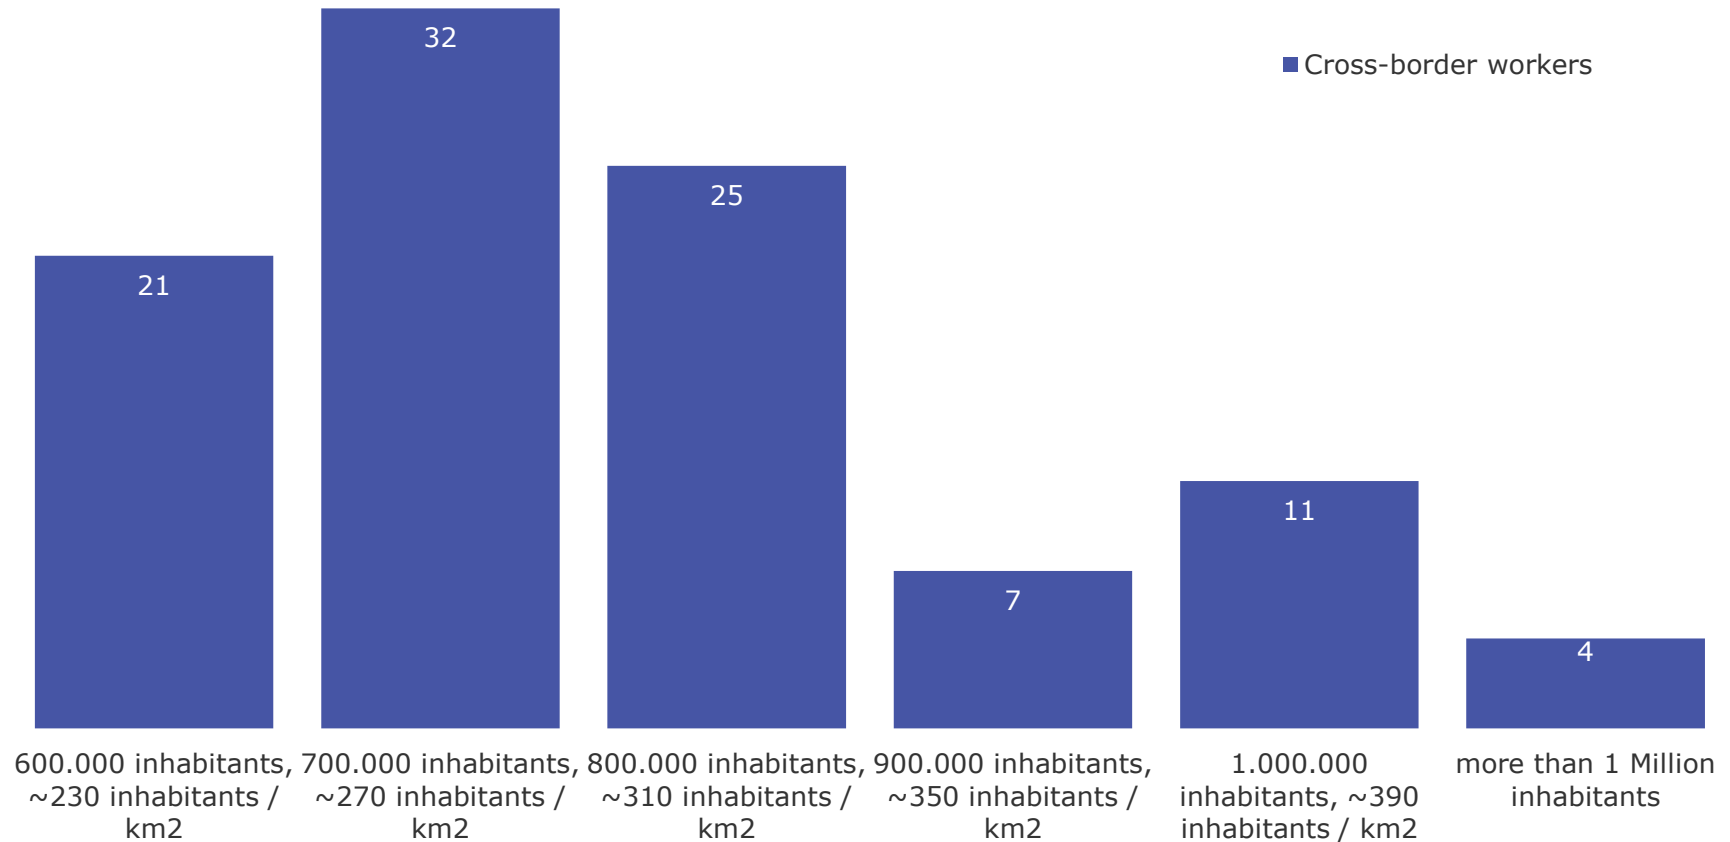

Determining the maximum share of foreigners in Luxembourg

- ✓ 50% of the residents answered that the maximum share of foreigners in Luxembourg should be less than 50%. Adding the threshold of 50%, 75% of the residents would not accept a maximum share of foreigners strictly above 50%.
- ✓ Crossing the share of 50% of foreigners in Luxembourg would be unacceptable for 80% of the Luxembourg nationals and 70% of the foreigners; it is even about 90% among the Luxembourg nationals belonging to the age group 65+.
- ✓ A notable fact: residents with more years of education appear to be more willing to accept a higher share of foreigners in Luxembourg.
- ✓ Additionally, residents belonging to the age group 65+ would rather prefer maintaining a share below 50%.
- ✓ The results for the cross-border community are rather mixed. About 40% among them stated that the acceptable share of foreigners should be less than 50%.
